PROFESSIONAL SUMMARY

A PROFICIENT FRONT-END DEVELOPER WITH EXPERTISE IN THE DEVELOPMENT OF INTUITIVE AND RESPONSIVE WEB INTERFACES. DEMONSTRATES STRONG SKILLS IN **REACT, NEXT, TYPESCRIPT, JAVASCRIPT, TAILWIND CSS, BOOTSTRAP, GIT, NODEJS, GSAP, CSS, MONGODB,** AND **FRAMER-MOTION**. KNOWN FOR EFFICIENCY AND DELIVERING HIGH-QUALITY WEB APPLICATIONS. MY CAREER GOALS INCLUDE LEVERAGING TECHNICAL SKILLS TO CONTRIBUTE TO INNOVATIVE PROJECTS AND DRIVE DIGITAL TRANSFORMATION.

SKILLS

PROGRAMMING LANGUAGE: HTML, CSS, JAVASCRIPT, TYPESCRIPT, BASH,
LIBRARIES/FRAMEWORS: REACT, NEXT, TAILWIND, BOOTSTRAP, FRAMER-MOTION, REACT-ROUTER, WEB3-JS, THIRD-WEB
DATASTORES: MONGODB, FIREBASE, SUPABASE

WORK EXPERIENCE

TRIPLE7EVENTS
Frontend Engineer

London, UK
2025-Present

- Implemented responsive and intuitive UI designs with **React**, **TS**, and **Tailwind CSS** to enhance seamless overall user experience, interaction.
- Integrated backend APIs using **Axios** to deliver dynamic data and features while also reducing load time and redundancy.
- Developed, optimised and managed user authentication flow, improving app security, protecting user data, and managing user sessions.
- Integrated payment functionalities while ensuring smooth, secure and fast transaction experience for users.
- Collaborated with team-members to optimize frontend performance and ensure design consistency across the application.

AIDOTHUB
Technical Assistant

Nigeria
2024-2025

- Assisted in building UI components using **NextTS** and **TailwindCSS.**
- Wrote **Python** code for AI applications.
- Organized and labelled data sources for AI development .
- Reviewed workflows related to AI development.
- Drafted articles and other technical content relating to AI.

ONCHAIN VILLIAN
Frontend Engineer

Nigeria
2025

- Developed a **blockchain-based game** using **JavaScript** and **React**, deployed on the **Abstract Network**, combining engaging gameplay with decentralized technology
- Designed and implemented a **real-time leaderboard system** for tracking player scores and rankings, enhancing competitiveness and user engagement.
- Integrated **smart contract interactions** on the frontend to securely manage game logic and player assets.
- Identified and mitigated potential **vulnerabilities and security risks**, preventing exploits and ensuring game integrity against hacks.

- Collaborated with blockchain engineers and UI/UX designers to deliver a seamless and secure Web3 gaming experience.

RCCG DTCE ICT   **New York, NY**
Frontend Lead   **2023-2025**

- Led and coordinated a team of frontend developers in building and development of web application.
- Oversaw the end-to-end development of websites and internal portals using **React** and **Tailwind CSS**, ensuring scalability, performance, and design consistency across webapps.
- Collaborated with backend and product teams to align technical implementation with business objectives and enhance project delivery timelines.
- Implemented best practices in **version control, code optimization, and UI performance**, resulting in faster load times and improved user experience.
